### Republican State Convention.

The Republican State Convention met at Madison yesterday. The attendance was very large, every part of the State being freely represented. Dr. Stoddard Judd, a veteran Democrat of Dodge county, presided. It will be seen by our telegraph report, that no nominations had been made when the Convention adjourned last evening — The last ballot for Governor stood as follows:— McIndoe 61, Holton 52, Randall 45, Bull 30.— The Convention adjourned till 8 o'clock this morning. They will, no doubt, complete their work to-day.

### Later from Europe.

The U. S. steamer *Vanderbilt* arrived at New York yesterday, with four days later dates from Europe. The telegraph brings us a synopsis of her news. The chief item relates to India, where the war between the revolted native troops and the British still rages. Nothing of importance from the Continent.

### Money Matters.

The telegraph reports a better feeling and no more failures in Wall street, yesterday. It is to be hoped that the panic is nearly over. Here it has the effect of depressing the grain market, which took quite a tumble yesterday, and of affecting all business operations unfavorably. We are strongly of the opinion, however, that a few days will set matters right again.

Mr. Hunt's Letter.—We print, on the other page, a letter from Mr. J. W. Hunt, Assistant Secretary of State, in reply to an article copied by us from the Bayfield *Mercury*, in relation to the land sales at La Pointe, on Lake Superior.

Having no knowledge of, or interest in, the method pursued by the School Land Commissioners, we leave their reply, made through Mr. Hunt, to those whose communication called it forth.

We have no recollection of the report made by Senator Barber last winter, endorsing the propriety of the fees charged by the Commissioners, but we have a very distinct impression that the Statutes *do* provide, in effect, that the expenses of the sales shall be paid from the School Fund. *Certain* fees *are* provided for in the Statutes, and the express provision made that these are to go for paying the expenses of the Board. It is very true that precedent exists for the Commissioners exacting fees which run up their annual salaries to $4,000 or $5,000, or more,—possibly $10,000 this year—but there is no *law* for it that we ever heard of. We have not the Statutes at hand, to refer to.

### A Dead Bolt.

The Milwaukee *Grad Aus*, an influential German paper—Democratic in politics—refuses its support to the Barstow ticket nominated on Thursday and Friday last. It pronounces it the ticket of political wire-pullers and ballot-box stuffers, and says no honest and intelligent man can support it.

It urges the German Democrats not to vote at all at the next election.—*Madison Journal.*

### The Lunatic Asylum Contract.

The Madison *Argus* says that the contract for building the State Lunatic Asylum,—the main building, two transverse and two longitudinal wings, has been let to Nelson McNeil, the lowest bidder, at $90,000. The bids run as high as $218,000. The *Patriot* says:

> The law providing for its erection, has, we believe, been strictly followed out by the present commissioners, and we hope this much needed, and long neglected provision for the unfortunate of our State will be very available.

We have been waiting to see the *American* prove, or retract its charge of corrupt jobbing in relation to this contract.

### Death of Hon. James H. Lockwood of Prairie du Chien.

The Prairie du Chien *Leader* contains an interesting obituary of Hon. James H. Lockwood, of that place, who died on Monday, the 24th ult., in the 64th year of his age. We condense the following items of Judge Lockwood's long and eventful career:

He was born in Clinton Co., N. Y., in 1793, and was till the age of 16 employed on his father's farm. In 1814 he engaged as clerk to a sutler in Gen. Izard's army. "In 1815, he was invited by Lewis Rouse of Green Bay to assist him, as he had secured the sutling of the Rifle Regiment which was then in Buffalo. He accepted the invitation, and had the pleasure of riding to Buffalo on the stage which, with colors flying, bore to that city the welcome tidings of peace. The troops were then ordered *West*—at that day a word of very different signification from what it is now; and on the 15th of Aug. 1815, Mr. Lockwood arrived at Mackinaw."

In 1816, he engaged in the fur trade at the head of the St. Peters River, and in 1819 finally made his home at Prairie du Chien, where he has since resided with his family. He has filled various posts of honor and usefulness, among them that of Judge of Crawford county, when that county comprised all north of the Wisconsin river. In 1826 he built the first frame house in Prairie du Chien, and this was the building occupied by Col. (afterwards President) Taylor, when he was commanding officer at Fort Crawford.

The State Historical Society possesses a life-like portrait of this venerable pioneer, and has gathered up many of his personal recollections. He had lived to see Wisconsin, from nothing, rise to the full stature of a State with nearly a million of inhabitants, and having lived a long and honorable life, has fallen like a shock of corn, fully ripe.

Chicago, St. Paul & F. D. L. Railroad.—It is reported that Mr. Ogden has resigned the Presidency of this road, and that Mr. Johnson, late superintendent, succeeds him, and that Mr. Dunlap, Assistant Superintendent, takes the place of Mr. Johnson.—*Janesville Standard.*

Barstow vs. Holt.—Our old friend Holt, of the Janesville *Gazette*, has recently received a notice from an attorney on behalf of ex-Gov. Barstow, who resides in that place, to appear and answer to some complaint unknown. He thinks it may be a libel suit, and proposes to put in a "general or special answer, as the case may require."

Those Quicksands.—The Canadians have been victimized by that "retired physician whose sands of life have nearly run out." The Toronto *Globe* says:—"A resident of Toronto sent the 12½ cents, and received in a return a receipt stating that the medicine could only be obtained genuine from himself at $2 per bottle. The sum was sent, but no bottle of medicine was returned. A letter, however, came, stating that the mixture could be bought in Toronto for seven shillings and six pence."

☞ Vittum and Sanborn, the Barstow Lunatic Asylum Commissioners, voted for Cross!!—*Journal.*

And Sam G Bugh, another "Barstow Lunatic Asylum Commissioner," had two votes, and cast them both against Cross, on every ballot.—*Madison Argus.*

That is easily accounted for. Sam is said to have repented.

### High Prices of Imported Stock.

The Illinois Importing Association sold at Springfield last week a large number of imported horses, sheep, cattle and hogs, realizing very high prices, and a good profit on their enterprise. The money results of the sale were as follows:

| | Cost. | Sold for. |
|---|---|---|
| Horses, | $ 3,692 | $ 6,65[illegible] |
| Cattle, | 25,300 | 31,450 |
| Sheep, | 2,442 | 2,150 |
| Hogs, | 1,333 | 3,265 |
| Total, | $32,767 | $43,520 |

Some of the prices paid were enormous. We give a few samples:

*Horses.*—Young Barnton, purchased by J. C. Crowder, Sangamon county, $5,050; Baylock, R. S. Wilkins, Bond, 1,600

*Bulls.*—Defended, 3 years old, purchased by J. H. Thomas, Champaign county, $2,500; King Alfred, 2 do, J. Jacoby, Sangamon, 1,300; Admiral, 2 do, S. Dunlap, Morgan, $2,500; Argus, 2 do, B. Saunders, Jersey, 2,058; Doubloon, 1 do, W. Iles, Sangamon, 1,075.

*Cows.*—Bella, 5 years old, purchased by J. Ogle, St. Clair county, $759; Stella, 4 do, Mr. Bondman, St. Clair, 925; Lady Harriett, 3 do, J. Jacoby, Sangamon, 1,300; Western Lady, 2 do, J. N. Brown, Sangamon, 1,325; Empress, 2 do, J. Jacoby, Sangamon, 1,725; Rachael 2d, 2 do, J. N. Brown, Sangamon, 3,025; Emerald, 1 do, J. C. Bone, Sangamon, 1,125; Perfection, 1 do, E. Hitt, Scott, 900; Fanny, 1 do, Spears & Co., Menard, 1,050; Violet, 1 do, Mr. Judy, Menard, 700.

The Wall Street Panic.—The New York *Courier & Enquirer* in speaking of the panic in Wall street, says:

> In Wall street, yesterday, although one or two new failures were reported, there is a decidedly better feeling among financial circles. We have a solid bank capital, well invested, of $65,000,000; an insurance capital of $20,000,000; real estate, taxable rates, but worth twenty per cent more, to the value of $340,000,000; personal property, also undervalued, to the amount of $170,000,000; making a grand total of $595,000,000. This is perhaps *one half* the wealth of New York city. Now, what have been the losses of the past few days? In the whole about one million or (at most) two millions of dollars. And this small amount is not lost. Some persons have the money and are using it. The capital is not extinguished. A single fire, whereby $300,000 to $400,000 is destroyed, is more to be lamented than all the recent financial losses.

### Later from California—$1,500,000 in Gold Coin.

The following is a copy of a dispatch to M. O. Roberts, Esq.:

> New Orleans, Aug. 30, 1857:
>
> The steamship Empire City has arrived here from Key West. All well.
>
> The steamship Illinois, from Aspinwall, with 500 passengers and $1,600,000 in specie, would leave Havana for New York on the 30th inst.—She had been on Colorado Reef, 70 miles west of Havana, for three days, but after throwing off 200 tons of coal, she got off without injury. She was hauled off by the steamship Empire City, assisted by the war steamer Blancode-Gray.—*Tribune.*

Suspension of the Reciprocity Bank.—We announce, with deep regret, the temporary suspension of the Reciprosity, late Sackets Harbor Bank. Owing to the stringency of the times and the failures elsewhere, the President has, under the advice of friends, deemed it due to the bank, as well as all concerned, to suspend for a few days. We think we do not mislead the public when we say that no apprehension need be felt in regard to the redemption of its bills., or of its ultimate resumption of its usual business.—Its President, Mr. J. C. Dann, is a capable and honest banker, and we are sure that no one will be permitted to suffer.—*Buffalo Republic.*

Presbyterian Theological Seminary of the North-West.—The Board of Directors of the old School Presbyterian Church, of the North West, appointed for the purpose of managing the Theological Seminary of that body, are now in session in the South Church (Mr. Henry's) of this city. The principal matter now before the Board, we are informed, is the election of a third Professor in the Institution, and adopting measures necessary to the erection of the Seminary buildings at Hyde Park.—*Chicago Trib.*

Steamers to Green Bay.—The Cleveland *Plain Dealer* says the company in Green Bay that own the steamer Queen City, running from this city to that port, have also purchased the Louisiana, which is to be put on the line in season for the fall business. The price paid for the steamer is $60,000, Mr. Eastman, the present Mayor of Green Bay, being the largest proprietor.

The Suspension Bridge near Hamilton Blown Down.—We learn that during the heavy wind which arose about six o'clock yesterday evening, the Suspension Bridge at the Desjardins Cannal, near Hamilton, was blown down.—It is providential that no one was passing at the time, as hundreds of carriages are every hour crossing it.—*Toronto Leader, 29th ult.*

## CITY MATTERS.

### POLICE COURT, Sept. 2.

BEFORE CLINTON WALWORTH, POLICE JUSTICE.

Anton Ruper was arrested on a charge, made by his wife, of being disorderly. It seems that Anton and a friend of his were enjoying a social bottle of whiskey in the house of the latter, and Anton's better half, fearing the consequences which said bottle of whiskey was sure to produce, attempted to put a stop to the enjoyment of the two topers, by ordering her liege lord to go home and let whiskey alone; whereupon Ruper became infuriated and kicked up quite a rumpus with Mrs Ruper, at whose request he was lodged in the "lock up."

He was dismissed upon an examination, his wife not wishing to prosecute him, and he appearing very penitent.

John Ford, intoxicated, (1st offence) fined $1.

A Norwegian, named Joseph Hanischko, who appeared to be either insane or so simple that he hardly knew his own name, was discharged to the care of the superintendent of the poor.

John Uhl, was charged with being drunk, and when asked if he were guilty, he replied; "Vell I go on de street, and I don't know vere I go—I kan no find my house,—I guess vash a little droonk," and the Chancellor guessed "he vash a leetle droonk" too, but as Uhl was peaceable, he was fined but $1.

Bridget Ford, for committing various depredations upon a shenty in the 3d Ward, was fined $1.

John Kennedy, charged with the crime of being intoxicated. "*Was* you drunk, Mr. Kennedy," said the city Attorney! "Of course I was, your Honor," said Kennedy. He was fined $1.

John Miller, disorderly, plead guilty, and was fined $3.

Sophia Reinhart, an unfortunate girl, who, we should suppose, was not over sixteen or seventeen years of age, was arrested for having committed sundry acts of impropriety upon the streets, on Tuesday night, and dismissed by Justice Walworth, upon her promising to leave the city immediately. She said that her people lived at Sheboygan.

"Six to one and Half-a-Dozen to the Other"—Chester Miles, a professional colored gentleman, was brought up upon a charge of having committed an assault and battery on a brother African named John Brown. Upon examining the case, it was found that both parties had been guilty of disorderly conduct upon the street, whereupon a warrant was made out against the latter, and they were fined $3 each and costs.

J. F. Mathias, a youngster of about 12 or 14 years of age, was brought up for threatening to commit violence upon a woman in the 2d Ward, and being otherwise disorderly. He was let off on an execution for 10 days imprisonment, in case of his committing the offence a second time.

A New Debating Club.—A debating society has just been organized in this city, to be called the Milwaukee Debating Club, composed principally of the members of the Philosophical Society. The first meeting was held at Concert Hall, on Tuesday evening, and the following persons elected as officers for the ensuing year:

*President*—E. W. Baldwin.
*Vice President*—John Johnson.
*Secretary*—H. N. Brake.
*Treasurer*—John Dyson.

The society holds its meetings every Tuesday evening at the above hall, which will be open to the public free of charge.

Anybody, who wishes to do so, can become a member of the club at any time.

We trust that the meetings of this society will be properly conducted, and no doubt, if well managed, it will be successful, and of great benefit to the young men of our city. None will regret having bestowed a little time upon the cultivation of their mental faculties, and in no place can general knowledge be more readily acquired than in the debating society. We hope that the young men of Milwaukee will take an interest in this, and make it both interesting and instructive to themselves and others.

A Large Steam Engine.—We were shown, yesterday, at the Eagle Foundry of Messrs. Turton & Sarcomb, on West Water street, a beautiful fifty-horse power Oscillating Steam Engine, which was just being shipped to Baraboo. It was built for Mr. S. V. R. Ableman to drive his saw mill at that place. The Engine and machinery was put together previous to being sent away, and we never have seen a finer looking or better finished piece of workmanship, east or west, than it.

The Eagle Foundry, we believe, is the only place in the State where the oscillating Engine is manufactured, and that of Messrs. Turton & Sarcomb is an improvement upon the common oscillating Engine. It possesses many advantages over other engines, of which we have spoken before. It occupies less space, the machinery is more simple, and consequently more easily repaired, and the cost is little more than *half* the *ordinary* price, while the manufacturers claim, and will guarantee, that it is as durable and equal in every way to any other style of engine manufactured. One of them has been in use in this city for a long time, and has given good satisfaction.

A Crazy Woman in the River.—Yesterday afternoon, while the Oneida street bridge was open to allow a scow to pass through, an old German woman, evidently insane, came along, and quite deliberately jumped in from the abutment! There was a large crowd assembled on each side of the bridge at the time, waiting to get over, and the excitement which it caused was not a little. Some wished to see the woman in the water, some to assist her out, and others rushed—nobody knew where, nor for what purpose. There was in a couple of minutes over two hundred people on the spot. The woman's clothes buoyed her up, and she was taken on board of the scow, which was close to her when she jumped, by Capt. Robinson Payler, who exerted himself manfully to save the poor woman. We understand that her friends took charge of her, but we could not learn her name, or place of residence.

Light Guard Saloon—Young America.—Among the "features" of the Light Guard Target Excursion, on Monday, was a very neat little field-piece, belonging to Mr. Henry Bingham, with which the artillery squad fired a Federal salute at noon, and National salute at sun-down. This piece was presented to Mr. Bingham by the Newark Works, New Jersey, and was kindly loaned to the Light Guards for the occasion.—Mr. Bingham, who is a new comer among us, succeeds John Ham in the management of the Light Guard Saloon. He is one of those who make friends everywhere, and will be sure to please all his customers. We wish him abundant success.

Dr. Barry.—We invite attention to the card of Dr. Wm. J. Barry in our advertising columns. Dr. Barry, who has recently moved to this city from Baltimore, is a brother of our fellow citizen, Col. Barry. The Doctor has had a very extensive practice, as well in military as in civil life; having been connected with the army during the Mexican war, and been Resident Physician of the Baltimore Infirmary, and Physician to the Pacific Mail Steamship Company. This varied experience, in different fields of practice and diverse climates, is a guarantee of Dr. Barry's sufficient preparation for the duties of his profession, including the branches of Surgery and Midwifery.

A Handsome Building.—Mr. Booth's new building on Spring street is now going up rapidly, and begins to show its handsome proportions and excellent design to good advantage. When completed, we venture to say, it will be the handsomest brick building in Milwaukee, and a valuable addition to the many beautiful structures which adorn our city.

Correction.—In our account, yesterday, of the Light Guard Target Excursion, it was stated that Mr. O. Butler would have won the second prize, but that he was not a competitor. It was Mr. O. M. Buttles to whom this remark referred, and who made three capital shots.

New Publication.—We are indebted to Strickland & Co. for an early copy of "*Moss-Side*," a new novel by Marion Harland, the well-known and popular authoress of "Alone," and the "Hidden Path." We have had no time, as yet, to read this work, but the reputation of the writer must ensure a rapid sale.

Major Robinson's Benefit.—Fife Major Robinson, one of the survivors of the Mexican War, takes a benefit at the Concert Saloon on Main street, one door South of Huron street, *to-night.*

He deserves and will, we trust, receive a *bumper.* The entertainment will be varied and attractive.

Arrests for August.—The number of arrests made by our Police force during the month of August, was 227; of which number 196 were for drunkenness and disorderly conduct.

Assigned.—The Wisconsin Home Insurance Company, of this city, has assigned all its effects to S. R. Streeter and E. W. Carpenter, for the benefit of the creditors.

Real Estate Sales Yesterday.—Mr. J. S. Fillmore, Land and and Collecting Agent, No. 246 East Water street, reports the following registered sales of Real estate:

### Fine Art Intelligence.

Those of our countrymen who have visited the Rospigliosi Palace in Rome, with its delightful gardens and basins, in which is the celebrated Fresco of the Aurora, by Guido, may have noticed an Italian lady at work on a very excellent copy of that widely known picture, and as the Fresco is on so high a ceiling as to require a very painful bending of the neck to see it, it becomes an agreeable relief to notice the copies which are constantly being made there. This lady is the Signora Maria Porcelli, who employs her life in copying that charming work, and her copies are so good as to be usually bought before they are finished. This lady has employed the short season when it is too cold to work in the Rospigliosi Gallery, which is warmed only by a brazier of charcoal, in making some other copies which she has sent to this country for sale. As the friend to whom they were consigned is in Chicago, they were taken immediately to that place, where a portion of them were immediately secured by gentlemen who had been abroad and knew their value. The remaining four have been brought to Milwaukee to be disposed of, and are now placed at the bookstore of Messrs. Strickland & Co. for that purpose, and our citizens who are interested in the fine arts, or who wish to secure some beautiful pictures to adorn their houses, are invited to call and see them. They are

*The Slave*, after Titian,
*The Speranza, or Hope*, after Guido,
*The Madonna*, after Sasso Ferrato,
*The Madonna and Child*, after Salarino.

It is a rare chance for our citizens to have the opportunity of possessing themselves of such excellent copies of valued pictures, and as they will remain here but a short time, those who care to see them would do well to lose no time in examining them. If they are not sold here within the month, they will be taken to the east, where they can be readily disposed of.

A Good Binder, who understands *Forwarding* and *Finishing*, can obtain steady employment at good wages, by applying at the *Sentinel* Bindery soon.
Milwaukee, August 28, '57.

Old and young are now indiscriminately using Prof. Wood's Hair Restorative; some as a cosmetic or beautifier of the complexion, some to prevent the hair falling, some as a mere dressing of the hair, and others to make it grow and to change gray hair to its original color; and there is no doubt of its answering all the purposes for which it was designed by its illustrious inventor.

We are utterly averse to incurring editorial responsibility in trifling matters, but as we deem it no trifling matter to have the hair on a man's head (when prematurely falling off) actually and permanently restored, so neither do we consider it unworthy the editorial profession to recommend a Hair Restorative that will effect this very thing. Wood's celebrated "Hair Restorative" is the article we have in view, and if the certificates of the most distinguished men in the country are entitled to credence, then is this preparation all that is claimed for it on the part of its proprietor. See extracts from the "Missouri Republican" in the special notice column of this paper.—*Railway American*

### London Money Market.

August 21.

The funds to-day have again shown a loss of their recent buoyancy, and have closed at a decline of 1½ per cent. Consuls for money which left off last evening at 91a91⅛ were first quoted 91, and soon reached 90⅞a90⅞ for money, and 90⅞a91 for account, at which they remained to the official close; after regular hours, however, there was a recovery of an eighth, buyers finally offered 91 for account. Loans were in rather increasing request, and the rate was from 3 to 4½ per cent., but the chief causes of the prevailing weakness seemed to have been the absence of transactions on the part of the public, and the general disposition of the speculators throughout the past week to press sales. The London corn market was dull on Friday the 21st ult., and sales could not have been pressed except at reduction of 1a2d.

### New School Presbyterian Convention.

Richmond, Aug. 29.

The New School Presbyterian Convention reassembled yesterday. The committee on resolutions state that in debating the resolutions of organization, a number of churches which sympathized with the Convention were not represented from motives of delicacy, because presided over by New England clergymen, but these, however, have sent members to express sympathy.

After the action of this body, those churches would provide directors who would sympathize with the objects of the Convention.

A debate then ensued of an unimportant character.

NIGHT SESSION.

The Committee on Resolutions reported in effect that: Whereas, the relation of master and servant in itself is considered not properly belonging to Church indicatories, is a subject of discussion and inquiry, Resolved, That in the judgement of this Convention, that the General Assembled Church has no power to pronounce sentence upon a lower indicatory or individuals, for any cause, unless they have been brought before the assembly in the way prescribed by the Constitution, that the Convention recommends all Presbyteries opposed to the agitation of slavery to appoint delegates to the Assembly which is to meet at Knoxville the third Tuesday in May next, for the purpose of an organization of a general Synod, under the name of the United Synod of the Presbyterian Church in America.

Action on this resolution was postponed until to day.

Richmond, Sunday. Aug. 30.

The Presbyterian Convention, on Saturday, perfected and passed three resolutions of the series reported from the Committee, declaring in substance as follows, viz: That the Presbyterians sympathizing with the objects of this Convention be invited to withdraw from their present ecclesiastical relations; that nothing can be made a basis for discipline in the Presbyterian Church, which is not specifically referred to in the Constitution as crime or heresy.

The proposition to organize a general Synod led to an exciting debate, but the proceedings thus far were very harmonious.

The Convention adjourned till Monday.

### Marine Intelligence.

Prop. Quincy.—The Old Oswego Line propeller Quincy, Capt. Chas. Hamilton, arrived in port yesterday morning, with about 800 tons goods from Oswego.

On coming out of Milwaukee on Monday last, she ran aground in the "New Cut" channel, of which the Milwaukeeans have made such a noise. At the time, she was drawing nine feet of water, and Capt. Hamilton was assured that there was nine and a half feet water, while in fact there was but seven feet.—*Chicago Journal.*

Vessels which attempt to go through the Straight Cut do so at their peril. The work is not yet completed; when it is done, the proper announcement will be made. Light vessels go through very frequently, and the steamer *Planet* has been through.

Homeward Bound.—The schooner "Madeira Pet" arrived in this harbor yesterday, on her return from Chicago to Liverpool. We fancy that her skipper will have something to say to his friends at home which will give occasion for the shaking of many a head doubtful of "travellers' tales." The St. Lawrence, gulf, river, canals, and inland seas, from St. Paul's to the head of Lake Michigan! When he tells the "old folks at home" of these, and that a voyage across the Atlantic is of the smaller account in a journey from Liverpool to Chicago, his narrative of the actualities will hardly be credited.—"Land ahead!" and yet nearly 2,500 miles to go! Impossible! will say ninety-nine out of a hundred the captain of the Madeira Pet, and yet he has but the simple fact to state either to the old sailors or marines. We have a particular pleasure in adverting to the Pet's trip, because that the enterprise in which she is engaged is one naturally following in the wake of the movement originated in Kingston. Some twelve or thirteen years ago the brigantine "Lilla" left this port for the ocean trade: much later, the barques Cherokee and Arabia.—These vessels were built here, their tonnage ranging from 300 to 350, (double that of the Madeira pet,) and capable of passing through the Welland Canal. The Arabia, on her return from Liverpool, proceeded to Chicago, and hers was the first ocean keel to divide the waters of that far western harbor, and prove the practicability of a direct trade between the transatlantic and lake ports.

The "Pet" has our best wishes for a speedy homeward voyage, and a profitable adventure.—*Kingston News, 27th.*

Dredge Burned.—We learn by the officers of the North Star that one of the dredges employed in dredging out Saut river was destroyed by fire on Friday last. The cook and another of the hands were badly burned.—*Detroit Tribune.*

Drowned.—On Friday evening, near Malden, as the schooner Live Yankee was descending the river in tow of the tug Oswego, a boy was lost overboard in attempting to loose the flying jib. Every endeavor was made to save him, but without avail.

The Live Yankee was on her way from Marquette to Cleveland with a load of iron ore.—*Ib.*

☞ The propeller Louisville, of the N. T. Co., arrived from Ogdensburgh on Saturday with about 200 tons goods consigned to E. R. Matthews, and to the Michigan Central Railroad Company.

On Wednesday, when coming through the Welland Canal, the Louisville collided with the schooner John Webster. The Louisville was considerably damaged in her upper works, and the head gear of the schooner was entirely carried away.—*Det. Adv. 1st.*

The New Ferry Boat.—We paid a visit yesterday to the ship yard of Messrs. Bidwell, Banta & Co., for the purpose of seeing what progress was being made on the Ferry boat building, for the Buffalo and Lake Huron Railway Company. She is nearly ready for launching, and is one of the largest ferry boats ever built, as well as the strongest. Her dimensions are as follows; length of keel 230 feet; breadth of beam 40 feet; depth of hold 13 feet, and 1,300 tons burthen. She is to be propelled by two powerful low pressure horizontal engines, from the extensive establishment of Shepard & Co., of this city. The engines are of 42 inch bore and 9 feet stroke, and wheels 25 feet in diameter. She is to have two tracks the entire length of the boat, and will take on eight long passenger cars. When completed, which will be about the 1st of November next, she will take the place of the steamers Troy and Clifton, and will be more serviceable than a dozen such craft. Her cost will be about $90,000.—*Buffalo Express, 26th.*

## Footprints of the Demagogue.

The *News* of yesterday indulges in some highly colored fancy sketches of the nominees on the Barstow ticket, in the course of which it introduces the following characteristic touches:

Hon. E. D. CAMPBELL of La Crosse, is the present Mayor of that city, and is personally one of the most upright and efficient men, in that section of the State. He is of Scotch descent.

GABRIEL BOUCK, Esq., the candidate for Attorney General, is of German descent, and the son of Gov. Bouck, of New York.

Hon. EDWARD McGARRY, the candidate for State Prison Commissioner, is the present able incumbent of that office,—he is an Irishman, a very worthy citizen and a capital Democrat. The fact that he is an Irishman and a Democrat, has made him the object of black republican hatred and intrigue.

NATURAL.—The *Sentinel* and *Free Democrat* single out CARL HABICH, the only German on the Democratic State Ticket, as peculiarly obnoxious to them.

The object of these references to the "descent" of the Barstow nominess, the "persecution" of that injured innocent, Mr. McGARRY, and the notice of the paragraph in the *Sentinel* about Mr. HABICH, is sufficiently palpable. It is a mere demagogue's attempt to cater to the supposed prejudices of our adopted citizens, and to keep alive and perpetuate, if possible, distinctions and differences between native and foreign-born electors. In regard to Mr. McGARRY we have already shown that he was "persecuted" by those of his own political household, who prepared charges against him which our Republican Governor did not think sufficient to warrant his removal from office.—Such is the plain fact, which the *News*, in the hope of making a little political capital among the Irish, deliberately misrepresents. As to Mr. HABICH, the *Sentinel* objected to him that he was clerk for three years while Mr JANSSEN was Treasurer and during the time that that officer became a defaulter to the amount of $35,000, and must have known what was going on (being a trusted agent of "the Forty") yet kept the knowledge to himself. The *News* makes no answer to this, but sets up a whine about the *Sentinel's* "singling out" Mr. HABICH for attack, because he is German. This pretence is alike false and hypocritical. Our objections to Mr. HABICH had nothing to do with his "descent," but related solely to his qualifications. If he has been an unfaithful servant to the State, the mere fact that he is a German is hardly sufficient ground for selecting him to the responsible office of Treasurer.

TELLING COMMENT.—Edward Stanley, the Republican candidate for Governor, in his first speech, commented upon the Dred Scott decision, and informed his hearers that during the time when Judge Taney said the opinion was entertained that "negroes had no rights which white men were bound to respect," they were allowed to vote in North Carolina.

This was before the discovery, by the *News*, that the "attempt to elevate" the negroes is *in striking opposition to common sense and Christian duty.*"

☞ BARSTOW and GEO. SMITH received each one vote in the Democratic Convention for Governor.—*Dodge Co. Citizen.*

Both ballots went for Cross on the last vote.

A BILL FROM SENATOR DOUGLAS.—Mr. Douglas writes to inform the public that he had no idea that the Fort Snelling reservation was *to be sold till after it had been* sold!

GOV. WALKER.—The Cincinnati *Gazette* says of this aspiring politician: "By making fair promises he has offended the South; by disclosing the hollowness of these promises he has forfeited the respect of the North—by clumsily managing so as to alienate both sections, he has vexed the soul of the President."

A VENERABLE JUDGE.—Judge POTTER, who is now ninety-one years of age, still acts as Judge of the United States for the District of North Carolina, and is said to be in full possession of all his mental faculties. The Fayetteville Observer gives a brief sketch of the life of this gentleman, from which we learn, that he was born in Granville, N. C., in 1765, and is consequently in his ninety second year. In 1800 he was appointed by Thomas Jefferson, Judge of the United States District Court for the State of South Carolina.

EDWARD EVERETT'S WASHINGTON FUND.—The Providence (R. I.) *Journal* says that Mr. Everett's delivery of his Washington oration, at Newport, realized about $700, and the whole sum contributed by him in this way for the purchase of the Mt. Vernon estate has been thirty-five thousand dollars. Mr. Everett remains nothing for his personal expenses.

THE VANDERBILT'S QUICK TRIP.—The N. Y. *Albion* insists that the *Persia* still carries the broom, the trip of the VANDERBILT having been to Southampton, some 60 or 65 miles longer than to Liverpool, and 3 or 4 hours too much having been allowed the latter ship for this distance.

EXPORT OF TREASURE FROM MEXICO.—According to the official Custom House report, the exports of the precious metals from Vera Cruz, for the first five months of the present year, were $6,777,326, of which all but $161,281 were in silver. The exports in June are not officially stated, but they were over two millions, making a total for the exports from Vera Cruz alone, during the first half of the present year, of nearly eight million dollars. Those from Tampico, Acapulco, Mazatlan, &c., would swell the amount to not less than ten million dollars.

BIRTHDAY OF LAFAYETTE.—A movement is on foot in Philadelphia for the celebration of the centennial anniversary of the birthday of LAFAYETTE, on the 6th of this month. The 6th occurring on Sunday, the celebration is proposed for the following day.

THE REPUBLICAN CREED.—The following sentiments, uttered by Judge Wilmot, in his recent speech at Philadelphia, express the Republican creed on the subject of Slavery:

I am a State's Rights man up to the hub. (Applause.) I am a State's Rights man of the old Jefferson school upon that question; I hold that under the Constitution of the United States we have no right to meddle directly with the question of Slavery in States where it already exists; it is a State institution, and it can only be controlled by State laws, and we in Pennsylvania have no more right to legislate for Virginia upon the subject of Slavery, than Virginia has the right to legislate for Pennsylvania upon the subject of our public schools. (Tremendous and long continued applause.) But, fellow-citizens, in the Territories the question is different. The Territories are the common property of the Union, and we have the common right to control them. (Prolonged applause.)

NO GRAPES IN MADEIRA.—A correspondent of the Boston *Traveller* writes from Madeira:

This year there is not a grape on the Island, and all hopes of overcoming the blight are given up. No one comprehends the disease, and no remedy can be found. The grapes when two months old, collect a mould on the shady side, as large as a pin's head, which bursts and shoots out the seed—in a few days they are dead. Mr. March has introduced the Catawba, which he thinks will flourish, and produce in a few years as much wine as the Island has ever done, and of a very fine quality.

We do not apprehend that the quantity of Madeira Wine will be at all lessened by the failure of the grape crop.

## The Lake Superior Land Sales—Communication from Mr. Hunt.

MILWAUKEE, Sept. 1st, '57.

EDITOR SENTINEL:—The *Sentinel* of the 28th ult. republishes an article from the Bayfield *Mercury*, of the 22d, which is a tissue of falsehoods from beginning to end.

The law allowing pre-emptions provides for the manner of their being proved up before the Commissioners, at any time previous to the sale, and as their acts in the premises are to be thoroughly investigated, "before another and more honest tribunal," it is not proposed now to argue their case, or to justify their action.

Lands not pre-empted are to be offered at public auction, and sold to the highest bidder, in legal subdivisions of forty acres. Who that bidder is—whether he be a "Madison Land Shark," "a Settler of La Pointe County," or a "Washington Clerk," is a matter over which the Commissioners have no control.

The land is put in the hands of the auctioneer, and it is his business to get the most for it. That he did not do so at La Pointe, I believe there is no complaint, but rather that he did by taking bids from "*the outside arrangement,*" of which he is accused of being a party. From this it seems that there was an "*inside arrangement*" which conclusion is warranted by the fact that all of the pre-emptors to *whom such great injustice* has been done, were represented by the correspondent of the *Mercury*, who claims to be a "Washington Clerk," and a resident of the district of Columbia.

Having acted as the auctioneer at the La Pointe sales, I know that the above accusation is a *lie*, as I have had no interest whatever, neither do I expect any either directly or indirectly, or in any other manner, in any of the lands sold, or in any profits or benefits arising therefrom. No complaint of partiality was made against the auctioneer at the sale, and not a single question of injustice was raised, the only dissatisfaction being that persons not residing in the County would give more for the lands than residents would.

The article copies from a bill as follows:

| | |
|---|---|
| The per cent. on $216,.............. | $24,00 |
| Interest to June 1, 1858,.............. | 4,96 |
| Fees,.............................. | 5 |
| Total,.............................. | $32,96 |

The law requires that *at least* ten per cent. of the purchase money shall be paid at the day of sale, and it is usual to charge enough above that sum to make the balance due the State even dollars without cents, for the convenience of computing interest. Such was the case here. Each lot was sold for $54, and had only ten per cent. ($5,40) been exacted, there would have remained $48,67 upon interest. Instead of this however, $6 was required, leaving the balance only $48, a sum much more preferable to owe, and to pay interest on, than $48,67. By multiplying the figures by four, (the number of lots included in the receipt.) the result is as above.

It is charged that the receipts for settlers of the county were made out before those for *outsiders*. This is true, and were so made out as an accommodation to them, and at their request, as they mostly lived at considerable distance from the Island where the land was sold, and were anxious to return home the same night.

It is true that the School Fund was not increased by penalties collected from *outsiders* failing to pay for their land on the day of sale, for no such penalties occurred, every one being paid for according to the requirements of the sale.

'Tis *not* true that Wisconsin money and drafts on Milwaukee were sold at higher rates of exchange. I believe that I am the only "outsider" at the sale who made any such exchanges, and I did so without any fee or reward whatever.

'Tis *not* true that "the Statutes of the State provide that the expenses of the sale shall be paid from the School Fund." Neither can they be so paid.

'Tis *not* true that "no authority is given the Commissioners to receive fees from the purchasers." The fees as charged are, established by law and long precedent, and met the approval of Senator Barber in a report last winter to the Legislature.

The expense of the sales and of the commissioners in attending them, can only be paid from their fees, and no sensible man knowing anything of the expenses of a trip to La Pointe, requiring a months time from each of the Commissioners, can complain that "they have made a very good thing of it."

The article concludes with the regret that such an outrage should have been permitted to go unrebuked so near the inviting waters of Lake Superior. Knowing as I do from frequent experience of late, the invigorating effect of bathing within its clear, cool, and salubrious waters, and being a tolerable *swimmer* and a first rate *wader*, I also have to regret that the "Washington Clerk," who in his *modesty*, subscribes himself as "the County of La Pointe," did not throw every one of the "outsiders" into it.

So far as the publication of this article is concerned, I care nothing about it, neither do the Commissioners, knowing that all of the facts are subject to examination and investigation, and I should not trouble you with this long communication except to redeem a promise made to the editor of the *Mercury*, when he wished me to deny the allegations in his paper, that should the same be copied into a *respectable* paper, I should give facts in the case.

Having published the same with your own comments, will you please use this in the same manner. JOHN W. HUNT.

THE PRESS OF FRANCE.—A foreign correspondent of the New York *Commercial Advertiser* gives the following statistics:

"There in France 1,037 printing offices, and 1,092 journals. The number of compositors employed in all France is about 9,500. Of these, Paris employs 2,600, Lyons 120, Bordeaux 110, Marseilles 112, Lille 110, Toulouse 102, Rouen 90, Tours 80, Nantes 78, Strasbourg 63, Besançon 60. Amiens 64. They occupy 4,000 pressman and aids, 900 correctors, proof readers and counters, and 350 conductors. The printing office of Alfred Mame & Co., at Tours, (which works for Paris,) runs 22 presses, which consume 300 reams of paper daily. This is the largest establishment in France. The average annual number of works which appear from the press is 8,000, not including stereotyped re-productions. Their value is estimated at five million of dollars. The proportion belonging to Paris is $3,040,000, so that Paris alone furnishes nearly two-thirds of all the matter produced in France."

☞ The remains of Professor Mitchell, the State Geologist of North Carolina, who recently met his death by a fall sustained during a scientific exploration of Black Mountain, are to be removed and buried on the top of that mountain, to which a road is to be opened.

## Tour of the Upper Wisconsin—History and Perils of Rafting.

RACINE, Wis., Aug. 7, '57.

While many seek to gratify a love for travel and excitement among the moldering ruins and dilapidated castles of the feudal world, excessive fondness for roaming among the more wild and undisturbed works of the Creator has led to this tour of observation in the depths of our own giant forests. In doing this, we have been favored with a cooling draught from the veritable source of the river which we describe, in connection with some of its business relations. Early recollections of the Lower Wisconsin and its connection with the "Father of Waters" at Prairie du Chien, call up the most pleasant reminiscences of by gone days. This noble river is 350 miles long, and gives name to the State, it being its largest water-course, and having its source and terminus within its bounds. The first note made in this tour is where our river crosses the southern line of the great Menomonee Indian Purchase, made in 1848, and is also the southern limit of the Upper Wisconsin, 150 miles from its mouth, and 60 north of the State capital. The wilderness here is giving way to the rapid strides of civilized improvement. A beautiful town has just come into being; it is one year old; $300,000 have been expended in improvements; everything is promising. Here, too, is to be one of the great arteries of communication between the East and the Upper Mississippi. Already hundreds of hardy laborers and mechanics are busy constructing the railroad and bridge, the latter costing $70,000. This place is at the foot of the "Dells," so called from a stupendous chasm having been formed through rocky heights. To pass in this gorge, the river is compressed into a width of from 60 to 100 feet. The roaring waters make a frightful rush in the wildest fury for six or eight miles. Viewed at different points on either side, from the peculiar whirl and foam, it is difficult for the imagination to fancy anything more frightful than these heaving and boiling caldrons. The wall of rock is perpendicular for most of the distance, and in many places 300 feet high. Before this vast crevice was worn through the solid granite, it is thought that an immense lake lay between those Dells and the next great rapid, a distance of 60 miles; but instead of this, there is at present only a noble, gently-flowing river, and a beautiful farming country, which will soon vie with far older settlements in agricultural wealth. More than a thousand farms have been opened here since the Indian title was extinguished.

At the Grand Rapids and the Great Conant Falls, another chain of roaring breakers and wild currents commences, broken only by short reneves of calm and quiet water, for the distance of 15 miles; falls which frequently make fearful havoc with rafts and raftsmen. We have now arrived at Stevens Point, at the head of these falls. It is a flourishing town, and the largest in Upper Wisconsin, but in fact, is the geographical center of the State. This is a general stopping place for much of the lumber from the upper country. Here the rafts are refitted and prepared for the severe ordeal in the extensive rapids below. It is a place of extensive business for its age; already the general Land Office here has sold 1,400,000 acres of land. There are between 400 and 500 buildings, besides 100 now in the course of erection. The Horicon Railroad is under contract to this point, to be completed in 1858, the iron horse being now only 50 miles distant, which will soon make New York a neighboring city. The vast, undisturbed, rich and fertile country west and north, the very recent "home and glory" of the Menomonee tribes, is soon to be penetrated by this giant civilizer of modern times, steam power.

From this busy bustling town we took passage in the little, sturdy, rustic steamboat Northerner, and after breasting the current for 30 miles, and witnessing the most wild and enchanting scenery, we found ourselves at Mosina, the next serious barrier to ascending navigation. Again the troubled waters rush furiously by, but even at this distance from its mouth, and after receiving numerous and large tributaries, there is but little perceptible difference in the size of our noble river.

Wausau, the seat of justice for Marathon County, is a fine town; we pass it as we proceed onward to discover the source of our cherished Wisconsin, which is found at length, after days of wearisome travel, in a beautiful lake called "Lac Vieux Desert," a sheet of the purest water 5 miles in diameter, forming a part of the northern boundary of the State, at the distance of 120 miles from the last mentioned town. From its very source we find our river navigable for boating and lumbering purposes. Floats may pass from this lake to any point below, although as yet there are no mills for sawing within 100 miles; but along all the water-courses in this vast region there are the finest pine forests in the world.

One writer holds this language in reference to this same wilderness:

"It abounds with silvery lakes, flowing streams, beautiful openings, prairies and extensive sugar groves. It is the old haunt, and has been so for ages, of the Indians—emphatically their home, their adored hunting grounds."

Of the amount of lumbering already carried on within the limits described in this tour some idea may be formed when from data it is ascertained that 52 mills on the river and its tributaries produce annually over 100,000,000 feet of lumber, beside immense quantities of lath and shingles. This lumber at the mills is valued at from $10 to $14 per 1,000 feet, and when marketed below on the Mississippi, twice this amount, making a sum of nearly $3,000,000. In this business there are about 3,000 men continually employed, and capital involved of nearly $6,000,000.

As the manner of putting this lumber together, or of forming a raft, and the conducting of these floats down the river may be interesting to the uninitiated, I will close the narrative with a chapter on rafting.

In forming a raft, the process is by separate sections or cribs according to the length of the boards, say from 12 to 15 feet. These cribs usually contain from 14 to 20 tiers of inch lumber, besides three strong planks for the bottom, called "grub plank." These three planks are placed (in the formation of the crib) from five to six feet apart, on the side of the river and parallel to it, each plank having three large holes bored thro' it, one in the center and one at each end, with a pin (or what raftsmen would call a grub) inserted in each, about four feet long; this pin is what a ship carpenter would call a "trunnel" or treenail. It is made of a sapling taken up by the roots, large enough to fill the hole in the plank, the root or grub forming the head; three boards are bored in like manner, and placed crosswise with the grub inserted, which forms the foundation or framework of the crib. The frame is now filled crossing alternately each layer of boards, until the whole is closely packed. A binding plank, with holes to correspond with those below, is used to receive the upper end of the pins, which are pressed down, and, with the use of a chain and lever, the upper and lower planks are brought together as closely as practicable, when the upper end of the pin (or grub) is wedged, making it all fast. On this river it is usual to fasten five to seven of these cribs together, by plank couplings, to form what is called a "rapid piece" (or a piece as large as can be managed on the rapids.) Pieces of timber are fastened on each end of this rapid piece, and each mounted with a huge oar for steering, made by inserting a twelve foot board on the heavy end of a pole between thirty and forty feet long, hung on a pivot fixed in the head blocks. To complete the whole, there are spring poles eighteen or twenty feet long, placed under the corners of the head block at the forward end of the piece; a fulcrum then is so placed, that by pressing down and fastening these levers, they raise the front end of the float giving it a fine rake to prevent it catching on rocks when plunging into foaming pools as it passes over slides and falls in its headlong rush, where, in some instances, the whole raft with the men disappears in the raging waters. To prevent the loss of life which sometimes occurs in this war of currents, a line or cable is drawn across from end to end of the piece, by holding fast to which, the men though submerged, may soon find their heads above the foam, and rushing onward.

When thus prepared, the Rapid piece is ready for its long and perilous voyage over dams, slides, rapids and cataracts. It requires from four to eight men to manage one of these pieces through a rapid of any note. From fifteen to thirty of these pieces combined, with couplings, form a respectable raft, to be run and controlled by one gang of men. When approaching a difficult pass, the whole is made fast in the slack water above the fall. A Rapid piece is then disengaged, and manned sufficiently to take it through, and when properly secured in an eddy, the men return to the remainder of the raft, taking another piece and passing with it in the same ordeal, until the whole is again united below. This "gigging back" (as it is styled in *rafting parlance*,) and generally at a quick pace, over rough hights, is something more than romance to the newly initiated in the mystery of rafting. The business on this river has become so extensive that, in proper stages of the water, from ten to fifteen of these fleets are waiting at the head of rapids for their turn to pass over.

After passing the Grand Rapid two pieces are generally combined and firmly fastened; with these the skillful pilot, with his daring and fearless men, enters the terrific pass at the far-famed Dells, and after a hazardous struggle in the whirling and dashing torrent emerges safely, as if ejected from a huge cavern between two frowning precipices, and proceeding still at a rapid rate, the worn and jaded voyager, if successful, at length finds himself safely launched on the broad bosom of the more quiet Mississippi. During this voyage on the Wisconsin the hardy riverman lives on his raft by day, and, much of the way, cooks and sleeps on shore at night, with the earth for his bed, and little to cover him beside one blanket and the open heavens. But having passed the main perils, he now gathers his scores of floating cribs, forming an extensive fleet. On this he erects his cabin and cook-house, and enjoys refreshing rest from his wearisome labors, and is comparatively a gentleman of leisure, while he is safely wafted by the current toward the destined market-place, at some city far down on this majestic river. ## The Plot for Kansas.

The Philadelphia *Press*, Col. Forney's new paper, gives the following evidence that the [illegible] of making Kansas a slave State by fraud and by silence is to be pushed to an immediate consummation:

IMPORTANT DISPATCH FROM WASHINGTON.
*Special for the Press.*
WASHINGTON, Aug. 28.

The prospect for a fair election for delegates to the September Convention in Kansas increases.

The work of the Convention will, it is said, be quietly done. It will probably be submitted to the people on the day that a Legislature is elected, and the chances are that the Constitution will be in Washington, with a member of Congress and two Senators to back it, by the 1st of December.

It is supposed that the Convention, like that of New York and Pennsylvania, will be *silent* as to slavery.

This programme will prevent an attack on Gov. Walker's nomination in the Senate. He can resign, and may come as a Senator from the new State.

Rest assured, there is some hope that this plan will be carried out.

SOLITAIRE.

—The election "for delegates to the September Convention in Kansas" was had two months ago, and a pro-slavery body returned by a total poll of less than fifteen hundred votes. This election was held under a bogus registry, which excluded the great bulk of the free-State men from voting.

The Constitution has of course been already concocted in some pro slavery conclave, and the Convention will merely go through the form of adopting it. They doubtless know a good deal more about its features in Washington than in Kansas.

"A Constitution *silent* as to slavery," framed by a Convention elected under Border Ruffian authority, will be a pro-slavery Constitution; slavery is already in Kansas, so far as usurpation bogus law can plant it there, and a Convention springing from the bogus authority does not need to legalize slavery there—to say nothing is to leave slavery legalized and established. No intelligent person can honestly dispute this.

Shall a Constitution so framed by a Convention chosen by less than a tenth of the people, and representing but one-fourth of the number, be imposed on Kansas by Federal authority and bayonets? This is the precise issue now tendered. What say the Free States?

SALE OF PUTNAM'S MONTHLY.—Putnam's Magazine was yesterday sold to the proprietors of Emerson's United States Magazine, and it will hereafter be incorporated with that publication. The price paid for it was $6,000, which may be considered remarkably cheap, as Putnam has nearly doubled its circulation since the last owners took it in hand. The new proprietors will endeavor to preserve the internal quality as well as the external appearance of this popular Monthly.—*N. Y. Mirror.*

FIRE & BURGLAR PROOF

THE WISCONSIN BADGER SAFES, [illegible] reputation which our safes have acquired, for excellence, durability and finish, warrants us in asking the attention of the public to our increased facilities for manufacturing the same.

The numerous improvements which we have added to our Steam Works, (Nos. 215, 217 and 219 East Water St.) places us beyond the reach of competition in our line of business.

The severe tests which the Badger State Safe has stood both in this city and elsewhere, establishes its proof against fire and water for the protection of valuables.

## THE DAILY SENTINEL.

### A Heroine.

A young lady nineteen years of age, named MARY MIKESELL, moved with some friends two years ago from Wausseon, Fulton County, Ohio, to Maple Rapids, Gratiot county, Michigan.—During the famine of last winter and spring, Miss Mikesell gathered ashes and made black salts, which she sold to procure food for herself and friends, thus saving them and herself from the perils of starvation. A few weeks ago she found it necessary to return to Wausseon; she resolutely started on foot, and walked the entire distance, one hundred and sixty miles, in four days—forty miles per day! Such a girl as that would head a division to storm the Malakoff.

We have these facts from two gentlemen of Wausseon, and can vouch for their accuracy.—*Adrian Watchtower.*

EX-EXECUTIVE OFFICERS.—It may be interesting to readers to know who of those that have occupied executive offices in our government are now among us. Of the ex-Presidents there are four still living, viz: Martin Van Buren, John Tyler, Millard Fillmore and Franklin Pierce. Of the Vice Presidents, also four: Van Buren, Tyler, Dallas and Fillmore. And four Secretaries of State: Van Buren, Louis McLane, Buchanan and Everett. Eleven Secretaries of Treasury: Rush, Ingham, McLane, (L.) Duane, Taney, Ewing, Reed, R. J. Walker, Meredith, Corwin, and Guthrie. Seven Secretaries of war: Cass, Bell, J. M. Porter, Wilkins, G. W. Crawford, Bonard and Jefferson Davis. Also, seven Secretaries of the Navy: Paulding, Badger, John Y. Mason, Bancroft, W. B. Preston, Graham and Kennedy. Eight Postmasters General: John McLean, Kendal, Francis Granger, Wickliffe, Cave Johnson, Collamer, N. C. Hall and Campbell. Eleven Attorneys General: Richard Rush, Taney, B. F. Butler, Gilpin, Crittenden, Nelson, J. Y. Mason, Clifford, Toucey, Reverdy Johnson and Cushing. And all the Secretaries of the interior, viz: Ewing, McKennon, Stuart, and McCelland, are yet living.

There are also seven gentlemen who have served as Speakers, of the National House of Representatives now living, viz: John Bell, R. M. T. Hunter, John W. Davis, Robert C. Winthrop, Howell Cobb, Linn Boyd, and N. P. Banks.

## MEDICAL.

THE LIVER
INVIGORATOR!
PREPARED BY DR. SANFORD.
IS A GREAT SCIENTIFIC Medical discovery, and is daily working cures, almost too great to believe. It cures as if by magic, even the first dose giving benefit, and seldom more than one bottle is required to cure any kind of Liver Complaint, from the worst Jaundice or Dyspepsia to a common headache, all of which are the result of a diseased Liver.
The Liver is one of the principal regulators of the human body, and when it performs its functions well the powers of the system are fully developed. The stomach is almost entirely dependent on the healthy action of the Liver for the proper performance of its functions; when the stomach is at fault, the bowels are at fault, and the whole system suffers in consequence of one organ—the Liver—having ceased to do its duty. For the diseases of that organ, one of the proprietors has made it his study, in a practice of more than twenty years, to find some remedy wherewith to counteract the many derangements to which it is liable.
To prove that this remedy is at last found, any person troubled with Liver Complaint in any of its forms, has but to try a bottle, and conviction is certain.
A compound has been formed by dissolving gums and extracting that part which is soluble for the active virtues of the medicine. These gums remove all morbid or bad matter from the system, supplying in their place a healthy flow of bile, invigorating the stomach, causing food to digest well, purifying the blood, giving tone and health to the whole machinery, removing the cause of the disease, and effecting a radical cure without any of the disagreeable after effects, felt by using CALOMEL or MINERAL Poison that is usually resorted to.
One dose after eating is sufficient to relieve the stomach, and prevent the food from rising and souring.
Only one dose taken before retiring, prevents nightmare.
Only one dose taken at night loosens the bowels gently, and cures Costiveness.
One dose taken after each meal will cure Dyspepsia.
One dose of two teaspoonfuls will always relieve Sick Headache.
One bottle taken for female obstruction removes the cause of the disease, and makes a perfect cure.
Only one dose immediately relieves Cholic, while
One dose often repeated is a sure cure for Cholera Morbus, and a preventive of Cholera.
One dose taken often will prevent the recurrence of BILLIOUS ATTACKS, while it relieves all painful feelings.
Only one bottle is needed to throw out of the system the effects of medicine after a long sickness.
One bottle taken for JAUNDICE removes all yellowness, or unnatural color from the skin.
One dose taken a short time before eating gives vigor to the appetite, and makes food digest well.
One dose often repeated cures Chronic Diarrhoea in its worst forms, while Summer and bowel complaints yield almost to the first dose.
One or two doses cures attacks caused by worms, while for worms in children, there is no surer, safer, or speedier remedy in the world, as it never fails.
There is no exaggeration in these statements. They are plain sober facts, that we can give evidence to prove, while all who use it are giving their unanimous testimony in its favor.
We take infinite pleasure in recommending this medicine as a preventive for Fever and Ague, Chill Fever, and all Fevers of a Billious Type. It operates with certainty, and thousands are willing to testify to its wonderful virtues.
Among the hundreds of Liver Remedies now offered to the public, there are none we can so fully recommend as Dr Sanford's Invigorator, so generally known now throughout the Union. This preparation is truly a Liver Invigorator, producing the most happy results on all who use it. Almost innumerable certificates have been given of the great virtue of this medicine, by those of the highest standing in society, and we know it to be the best preparation before the public.—Hudson County Democrat.
